ANAKIN'S SUPER-SPEEDER BAUANLEITUNG!

Die Sith-Assassins Asajj Ventress™ und Savage Opress™ haben keine Chance ihren Gegner Anakin Skywalker™ einzuholen. Denn Anakin's Super-Speeder ist besser und schneller denn je. Er enthält das Beste aus zwei Planeten, zwei Zeitaltern und zwei unterschiedlichen Speedern ... nur in der Galaxie von LEGO® *Star War* ist das möglich.

Bau Anakin's Super-Speeder aus Teilen der Sets Ewok™ Attack (7956) und Sith™ Nightspeeder (7957). Wenn du willst kannst du deinen Speeder natürlich noch mit anderen Elementen aus deiner LEGO Sammlung ergänzen!
